---

### Essential Cutting

This course is to learn the core principles of lines, layering, and graduation; which are fundamental to all haircutting. Mastering these precision techniques will help further your creative talents and innovation behind the chair

---

### Hands On

The morning portion of the day is dedicated to theory with diagrams and head sheets to help demonstrate as well as a presentation on a live model showcasing the foundational cutting skills for inspiration. Practical work on individual mannequins is done in the afternoon.
